

Off-Road Wheels

THE SMOOTHEST IN THE WORLD WITH BFBS TECHNOLOGY

Bart Factory® R&D department has invented a **new technology** applied to the **bearing group**. It is a system that **allows** special bearings to work in perfect condition by **removing the axial friction** usually acting on spheres in common wheels.

Special protective spacers **prevent the infiltration** of dirt and water into the **bearings**, keeping them **very smooth and protected** from seizing. A **special extractor** (included) allows a **quick** and easy bearings replacement.

NEW THE SMOOTHEST IN THE WORLD

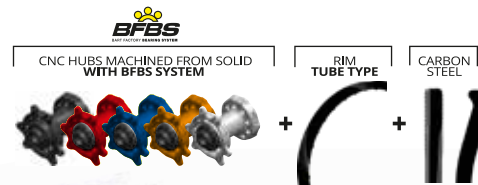

NEW BEARING MAINTENANCE EXTRACTOR

NEW PROTECTED FROM HIGH-PRESSURE WASHING

Cross

COMPLETE WHEELSET

- Ergal Cross rims made in Japan
- Anodized hubs machined from solid
- BFBS high-smooth bearing system
- Carbon steel spokes and nipples
- Bearings special extractor

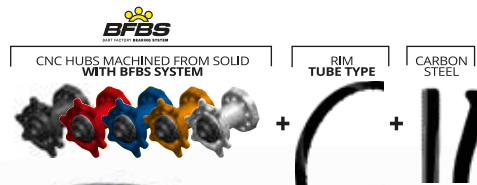

COMPLETE WHEELSET
€ 996,00 + VAT

Enduro

COMPLETE WHEELSET

- Ergal Enduro rims made in Japan
- Anodized hubs machined from solid
- BFBS high-smooth bearing system
- Carbon steel spokes and nipples
- Bearings special extractor

COMPLETE WHEELSET
€ 990,00 + VAT

Super Motard

COMPLETE WHEELSET TUBELESS

- Ergal Super Motard rims made in Japan
- Tubeless by Bartubeless technology
- Anodized hubs machined from solid
- BFBS high-smooth bearing system
- Carbon steel spokes and nipples
- Bearings special extractor

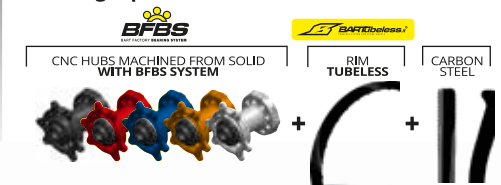

COMPLETE WHEELSET
DA € 1.222,00 + VAT

Flat Track

COMPLETE WHEELSET TUBELESS

- Ergal Flat Track rims made in Japan
- Tubeless by Bartubeless technology
- Anodized hubs machined from solid
- BFBS high-smooth bearing system
- Carbon steel spokes and nipples
- Bearings special extractor

COMPLETE WHEELSET
DA € 992,00 + VAT
